IMPORTANT NOTES

<p>Instructions - Refer to Vehicle Verifiers License Handbook (OL 301), available at dmv.ca.gov. Additional verification forms are available at dmv.ca.gov and at all DMV offices.</p>
<p>Permitted verifications for vehicle verifiers: (1) Nonresident vehicles, (2) any vehicle or trailer, excluding used motorcycles, with supporting documents for which there is no California record.</p> <p>All other vehicle verifications must be referred to the DMV or CHP for inspections.</p> <p>Prohibited verifications for vehicle verifiers: (1) Original applications for automobiles, motorcycles, and commercial vehicles with an unladen weight of 8,000 pounds or less whose US Federal Certification Label (Safety Lbl) is missing, illegible, altered, never issued (e.g., direct import-grey market), or does not match the documents, (2) revived salvage or revived junk vehicles, (3) specially constructed (SPCNS) vehicles, (4) used motorcycles with an unavailable California record (last registered in CA, but record no longer appears on DMV's database) or with documents from a foreign country, (5) motorcycles with engine changes.</p>
<p>VIN/Year - Pursuant to federal law, a 17-digit VIN that passes check-digit is required on all 1983 and newer year model motor vehicles, and all 1985 and newer year model trailers. The model year of 1980 and newer vehicles is encoded in the 10th digit of VIN.</p> <p>Do NOT use the Federal Certification Label as the primary source for the VIN. If any damage has been done to the label or it cannot be read, you must go to another source for secondary verification, such as: under the hood or firewall.</p> <p>When inspection of a VIN reveals evidence of tampering, alteration or obliteration of the number, immediately notify the nearest DMV, Investigations Section.</p> <p>For Specially Constructed Vehicles (SPCNS), enter "0000" for the year model. SPCNS vehicles are not manufactured vehicles and do not have a year model.</p>
<p>Trailers (except Horse) with Human Habitation (i.e., Fifth Wheel, Travel, and Toy Hauler) are Coach (CCH) or Camp (CMP). Fifth Wheel CCHs do not exceed 45' (540") (L) or 8 1/2' (102") (W). All other CCHs do not exceed 40' (480") (L) or 8 1/2' (102") (W). CMPs do not exceed 16' (192") (L) or 8' (96") (W). *(overall L)</p>
<p>Motorhomes do not exceed 45' (540") (L) or 8 1/2' (102") (W).</p>
<p>Truck Tractors with living quarters are BTM "DS" or "TR", unless the living quarters permanently prevent the truck tractor from towing or drawing other vehicles.</p> <p>The emissions label on the doorpost is often the <i>noise</i> emissions label and is not the EPA acceptable label. The emissions label is often under the giant hood in the engine compartment.</p>
<p>Pickups - The Gross Vehicle Weight Rating (GVWR) is found on the US Federal Certification Label. NOTE: GVWR is Gross Vehicle Axle Rating, not GVWR. Pickups under 11,499 GVWR have the following BTMs: 3C, 4C, PC, PK, and SP. Pickups over 11,499 GVWR are BTM "VA".</p> <p>The following multi-designed vehicles are pickups: Cadillac Escalade EXT, Chevrolet Avalanche, Ford Explorer Sport Trac, Hummer H2 SUT, and Nissan Frontier.</p>
<p>Pickups-Mounted (CVC §§243, 362, 661) - To have BTM "PM", the pickup must have a permanently attached camper shell, canopy, or similar mounted structure, and provide facilities for human habitation or camping purposes.</p> <p>Advise owner that removal of the structure will require commercial registration and weight fees to be due.</p>
<p>Motorcycles - Only a verification form completed by an authorized DMV employee is acceptable on an application for on-highway (street) motorcycle registration of any motor vehicle currently registered OHV or titled with type license "C2" (title only).</p> <p>Used motorcycles with unavailable records, or documents from a foreign country must be inspected by CHP.</p>
<p>OHVs - A 2003 and newer year model OHV with a "3" or "C" in the eighth position of the VIN are non-complying OHVs (red sticker).</p>
<p>Golf Carts (CVC §345) are motor vehicles designed to carry golf equipment, and carry no more than 2 persons, including the driver, and have at least 3 wheels in contact with the ground, and weigh no more than 1,300 lbs. unladen, and not exceed a speed of 15 MPH.</p>
<p>Digital photographs may be taken and attached by licensed vehicle verifiers to further substantiate this verification. State number of photos and briefly describe photos in the REMARKS section.</p>
